

DESCRIPTION

This play is designed to present three different scoring options from under the defense's basket.

1. All of these events will occur simultaneously: the (5) cuts diagonally to the opposite block, the (4) cuts down towards the baseline, the (2) sets a screen for the (1) who then heads to the corner looking to shoot a 3-pointer.
2. The (3)'s first options should be to pass to either the (5) or (4) for a layup. The last option should be to pass to the (1) for a corner 3-point shot.
