

DESCRIPTION

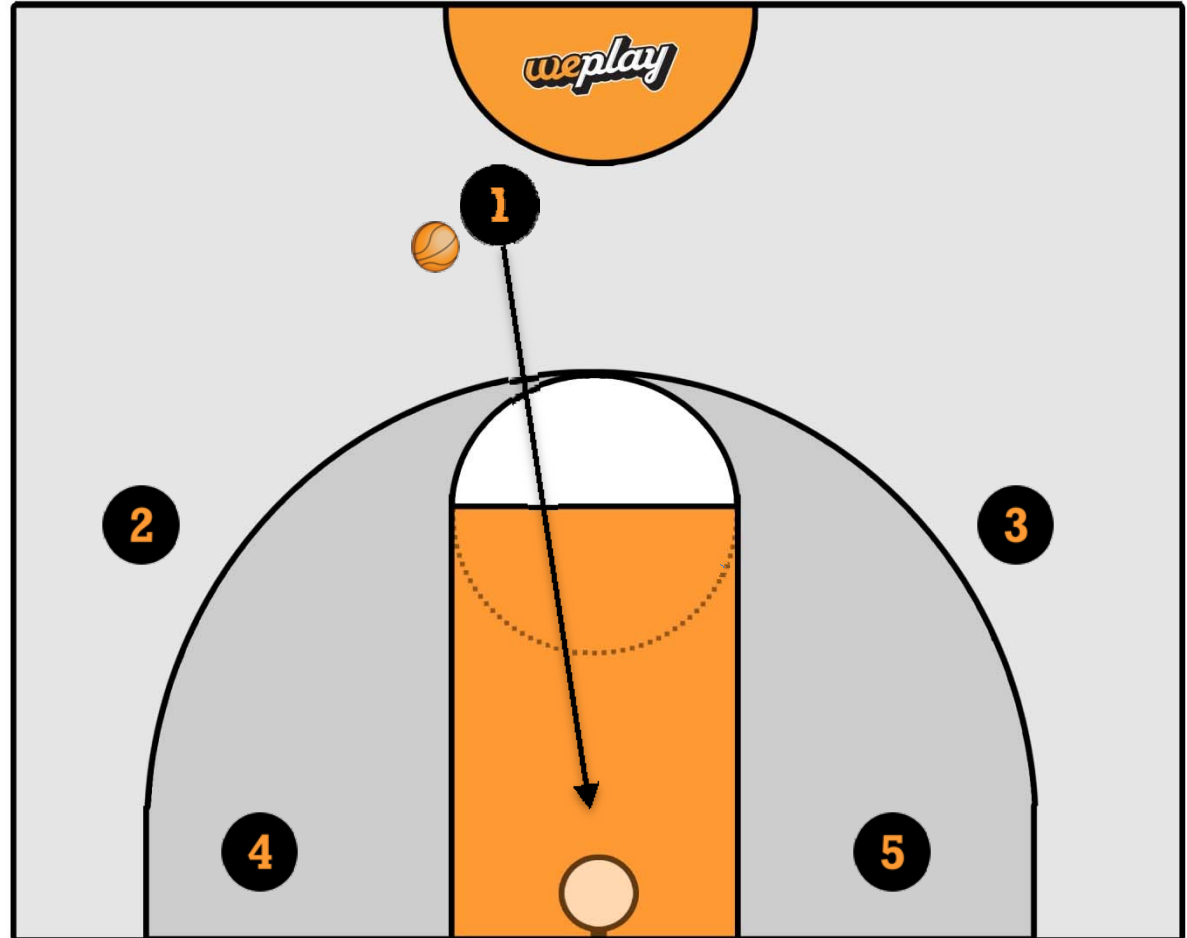

The basic objective of the drive-and-kick play is for the (1) to penetrate to the basket and eventually drawing the defenders closest to the paint, which would then open up jumpshots for either player by the baseline.

1. The (1) dribbles hard straight down the middle of the key heading towards the goal.
2. Once by the hoop, one or two defenders will potentially close out on the (1), which then gives the (1) the option to pass to the open (4) or (5) for a midrange jumper.

CATEGORY Offense

PLAY NAME

Offensive Drive & Kick Play: "T-Rev"
