

## DESCRIPTION

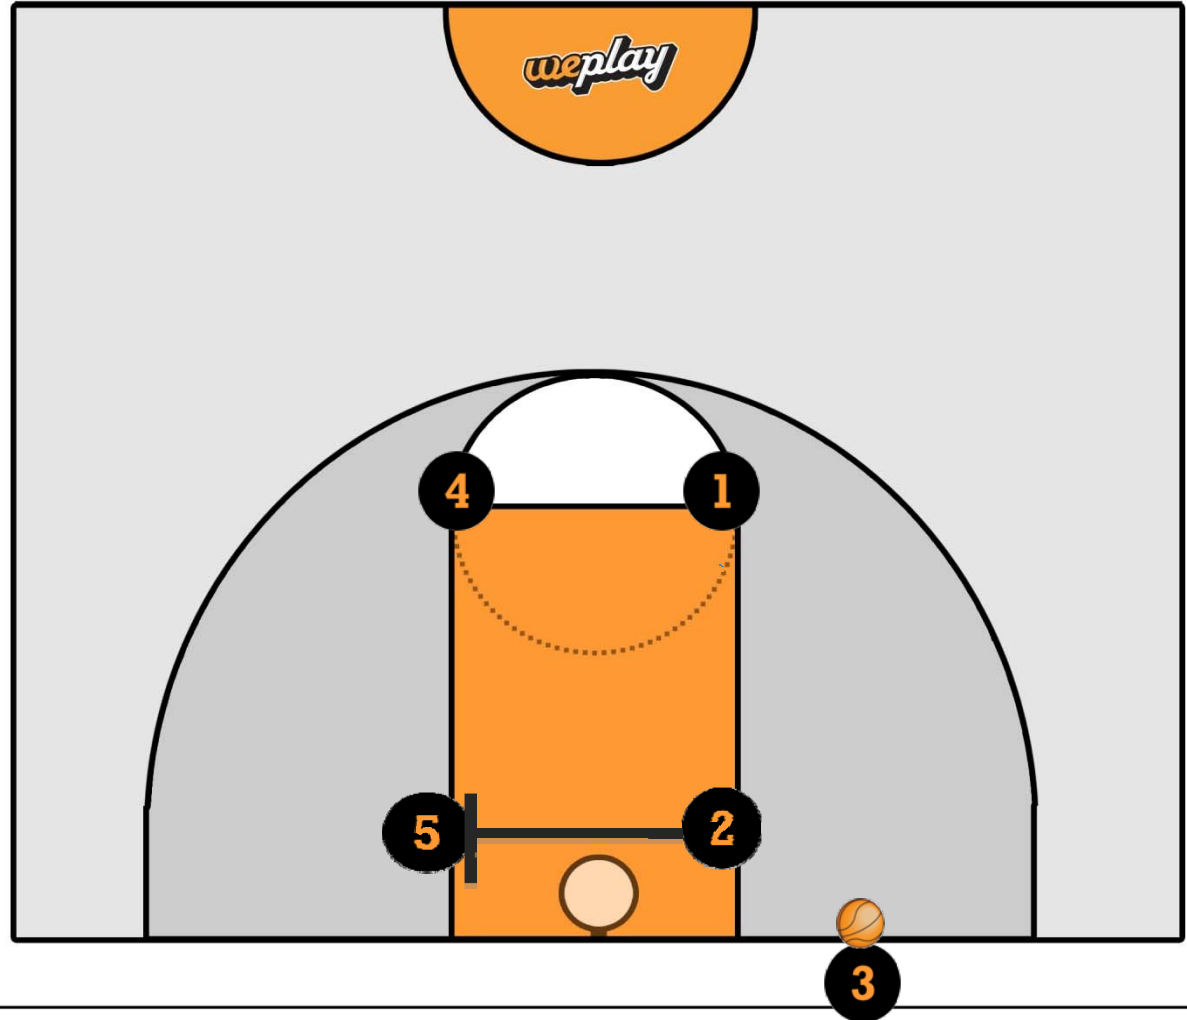

The objective of the box inbound play is to create two wide open shots to score from, either a 3-pointer or a layup.

1. This inbound play is initiated by the (2) setting a screen for the (5).
2. The (5) will then set another screen for the (1).
3. The (1) would then streak to the 3-point corner to receive a potential inbound pass from the (3).
4. The (3) has the option to pass for a wide open 3-pointer or pass to the (5) cutting to the block. The (2), (4), and (5) proceed to rebounding position.
