

# Musical Cones

Dribbling game that takes the old classic game and makes it relevant again.

**Setup-** arrange cones in a loose circle, starting out with one fewer cones than number of players.

**The Game-** Each player has a ball, dribbling within a confined space. When the coach blows a whistle, each player must sprint dribble to a cone, then stop with the ball touching the cone. No cone may be occupied by two players, hence one will be out. Remove one cone each round until you get a winner.
